

Our FX Solutions
Provide Efficiency and Savings

Medical Protective Mask

- Medicalforex, we solve the problem of exchange rate unpredictability by developing FX strategies that help businesses balance the three major variables they must consider with Spot Trades, hedging and how much, how far forward and when?
- In doing so, we give our clients greater control over the impact exchange rate volatility has on profit margins, cash flow and the ability to provide services to our clients at competitive prices.

Through our network of global clients we approached our Chinese clients to assist with the ability to provide much needed medical resources here in the UK

We have detailed on this pdf the Masks that are available, please request price stating quantity required, prices in GBP £
Air freighted by our Aviation clients to the nearest hub that is convenient.
Or Sea freight with our clients at Marineforex.

Ordering Procedures

COVID-19:

Due to the current COVID-19 Pandemic we have been inundated from customers and contacts requesting help sourcing the correct PPE. In dealing with CHINA and Chinese companies for more than 10 years we have a unique insight as to how to source the most reliable products at the most competitive prices, we have reacted fast to the current situation and will go above and beyond to deliver what is needed.

1. Discuss your requirements with our **MedicalForex** sales department and send your order to them to process.
2. We will raise a pro-forma invoice with all your order details and list technical specifications you have requested. You must sign and return the pro-forma to confirm all the details are correct. This will be your order confirmation, so it is important to check all the details thoroughly.
3. Once you have signed and returned your pro-forma you are requested to arrange 50% TT payment of the full order value; all which details are listed on the pro-forma.
4. Production request is confirmed with the factory upon payment being received and the production date will be notified by return.
5. Shipping details are then confirmed with you depending upon your requirements by sea or air.
6. On completion of production and prior to shipping, the balance 50% of the full order value is requested to be arranged by TT payment.

Thank you
